

SAS Visual Analytics

Implications and Opportunities for Child Youth and Family Operational Reporting

Political Context

Hon BILL ENGLISH: Well, there is an interesting issue around data, and that is that most of the data held by the Government is organised around Government departments, not around families and communities.

One of the challenges for the Public Service is to reorganise the millions and millions of dollars' worth of data that it has in a way that is much more relevant to decisions about families and communities, not about Government departments.

Phase 1

Phase 2

Phase 3

Use SAS VA to display the Traffic Light Report.

Add some information about Care

Demonstrate VA over CYF data

Develop Training Materials

Training for Site Managers/Expert Users on VA over Traffic Light

Site experts train local staff

Gradually move other Te Pakoro reports over to SAS VA

Introduce SAS VA over the new Integrated Person View.

This is the Ministry wide data set that includes Client event data from CYF, W&I and Corrections.

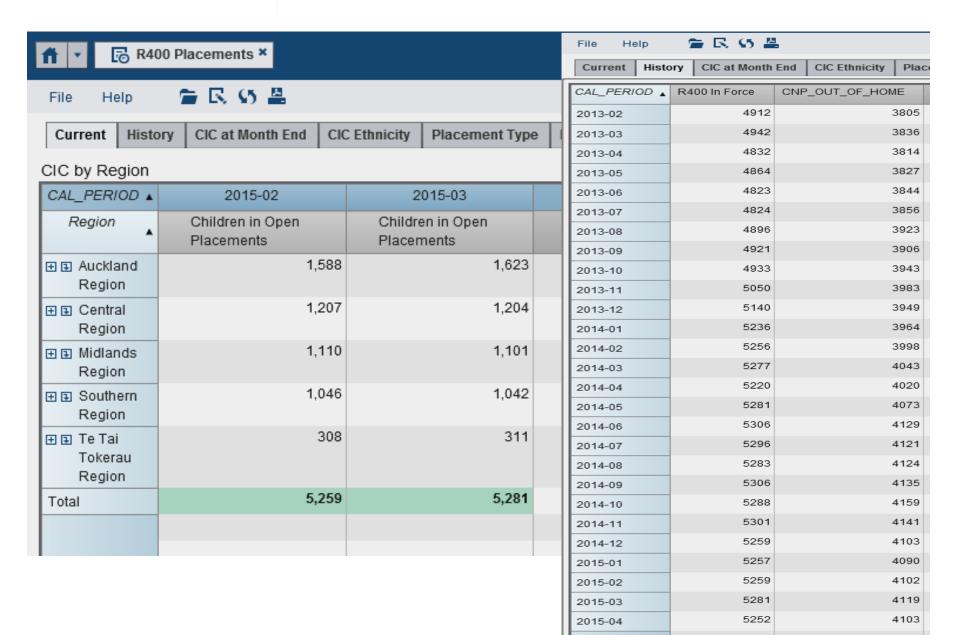

2016 Development of outcome focussed reports using multi agency data.

1/5/2015

- Most staff will be report "consumers". They can not change the report content but can change views of the data to suite their circumstances E.G. Site Views and client exception lists.
- 2. Analysts will be able to develop reports and put them into a personal folder to share locally E.G. Regional Analysts.
- 3. Software Developers at National Office will prepare the Traffic Light and other reports using central change control process.

CARE IS A MAJOR COST & RESOURCE DRIVER FOR CYF. WHAT CAN WE LEARN ABOUT CHILDREN IN CYF CARE?

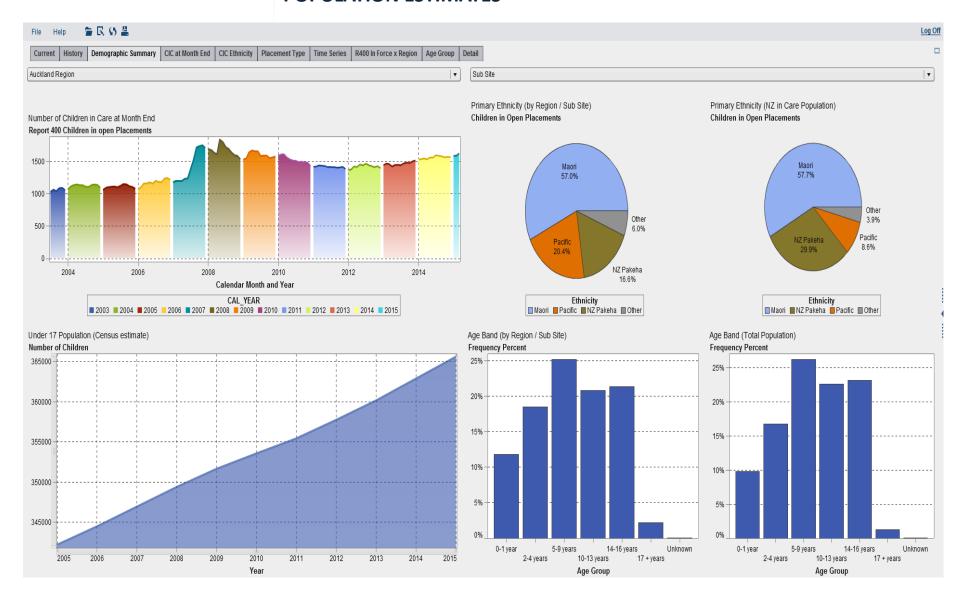

THE IN CARE POPULATION CAN BE VIEWED FOR ALL OF NZ, BY CYF REGION, OR SITE.
